Beyond Play: Kindergarten Readiness (Language, Literacy, and Fine Motor Development)

(Children Entering Kindergarten)

This program will focus on kindergarten readiness skills. Early literacy skills including phonemic awareness, phonological awareness, and phonics will be targeted through fun lessons and themes. In addition to these areas, theme based units will be utilized to target comprehension, vocabulary, and fine motor skills. This is a fun and engaging program using music, movement, art and role-playing to improve early literacy, social communication, expressive/receptive language, and fine motor development/handwriting skills. This program is led by a speech-language pathologist and occupational therapist.
